

Canada, Project Management – Global Education Network (GEN)

July 2- July 22, 2017

Study Abroad Experience:

Study Project Management beautiful in Calgary, Canada, a modern city with a population of over one million residents. The city grew out of the Canadian West and boomed due to the abundance of oil in northern Alberta province. Calgary balances the modern and the traditional with pioneer charm. You will experience the western influence by completing a project with the annual **Calgary Stampede**, complete with rodeos, parades, concerts, rides, food and shows. Year-round you'll find abundant shopping, dining and nightlife and you are a short drive away are some of Canada's finest national parks like Banff and Lake Louise.

The Course: Project Management Basics: MGT-121

Students from our GEN (Global Education Network) partner schools in Australia, Singapore, Canada and the United States will be organized into multicultural teams to study the processes of project management and learn how to apply project management concepts to the real-world setting. This program will be hosted at **Southern Alberta Institute of Technology (SAIT)** in Calgary. The course will provide hands-on opportunities, for students to get involved with a special project designed by SAIT at the world-famous Calgary Stampede.

Program Highlights:

Gain valuable project based experience

Excursions to Rocky Mountains, Banff National Park and Lake Louise

Build leadership, teamwork and management skills

Make friendships with students from Australia, Canada, Singapore, and US

"The (GEN) Project Management program was an incredibly valuable experience. It helped me understand how to communicate and work with people from different cultures. This will be beneficial no matter what I decide to do in the future!"

Kirkwood, Global Education Network student, 2016
