The City-State

Located in Southeast Asia, Singapore is an island that encompasses only 270 square miles with 4.6 million residents. Without any natural resources of its own, Singapore's resource is the people. Singapore represents a merge of Malaysian, Chinese, Indian and Euro-Asian cultures, creating a diverse land with many choices for food and entertainment. With year-round weather between 70 and 90 degrees, Singapore has a lot to offer. You may enjoy world-class shopping on Orchard Road, a trip up in the Singapore Flyer – the world's largest observation wheel – or a day at Sentosa Island, boasting beaches and the Underwater World Oceanarium.

The Course: GLS-120: Education Experience Abroad

The Global Education Network is a collaboration of postsecondary education institutions providing students with an international learning experience for employment in a global economy. The **Institute of Technical Education (ITE)** is Kirkwood's GEN partner for this program. This three-week study abroad course has a special design linked to your particular area of study, whether it be web design, graphic design, early childhood education, culinary arts, or any other area ITE supports. GEN will design a specific itinerary related to your program, including:

- Participation in college courses at ITE in your area of study.
- Industry site visits and/or placements in your field.
- Intercultural learning experiences and cultural excursions!

"I had so much fun in Singapore, I learned a lot about Asian culture and way of life. It is so much different than the United States."

Kirkwood, Global Education Network student, 2014
