

KIRKWOOD STUDY ABROAD

ITALY INTERIOR DESIGN

July 11 - July 24, 2019
3 Credits

Course: INT-311 Global Perspectives in Interior Design

This course is a combination of hands-on learning, lecture and travel. It uses hands-on teamwork focusing on national and global design issues, human factors through exposure to contemporary issues, historical architecture and design, varying dynamics, other cultures, and different economic groups. The course includes pre-departure meetings with information about Italian culture, locations and design. While abroad, you will participate in design charrettes (quick design challenges) and carry a sketchbook to sketch what you are seeing and reflect using visual methods.

The Country:

The heart of the Roman Empire, birthplace of the Renaissance and home of the Vatican and Roman Catholic Church, Italy is home to some of the world's greatest works of art, architecture and cuisine. You will explore the most-visited cities—Rome (Roma), Naples (Napoli), Florence (Firenze), Pisa, Burano, and Venice (Venezia). In Rome, you can feel the uninterrupted flow of the ages, from the classical era of the ancient Romans to the pulse of contemporary life being lived in centuries-old settings. Next, in Naples you will experience the elegant masterpiece of history, design, and archaeology of Pompeii and Herculaneum. Florence is the jewel of the Italian Renaissance, which is evident in the formal grandeur of its palaces and piazzas. Venice, by contrast, seems suspended in time, with its Venetian architecture and glorious canals. Burano is the most colorful architecture in the country and known for lace production since the 15th century. Each of these cities reveals a different aspect of the Italian character; all six reveal the seamless blend of awe-inspiring art, history of architecture suspended in time, chic design and human warmth that symbolize the country.

Program Highlights:

- ♦ Vatican Museums and St Peters, Galleria Borghese (Rome)
- ♦ The Colosseum and Roman Forum (Rome)
- ♦ Pompeii /Herculaneum
